

VAT Forum presents

# EU VAT Directive Online training

**19 September to 23 September 2022**

Online Zoom meeting

This course was organized for the first time in 2015 and was a huge success! It was initially intended as a one-off, but there is such high demand for a concise, high-level course dealing with the EU VAT Directive that VAT Forum has decided to repeat it in 2017, 2019, 2020 and now again in 2022.

## Scope of the Module 'EU VAT Directive' / Online training

The training will immerse you in the following aspects of the **EU VAT Directive and EU VAT Implementation Regulation** over five days:

- Taxable persons (articles 9 to 13 and article 43)
- Taxable transactions (articles 14 to 30)
- Place of supply of the different taxable transactions (articles 31 to 61)
- Chargeable event and chargeability of VAT (articles 62 to 71)
- Taxable amount (articles 72 to 92)
- Exemptions for intra-Community transactions (articles 138 to 142)
- Right of deduction (articles 167, 167a, 168, 178 to 183)
- Liability to pay VAT (articles 193 to 205)
- Invoicing and storage (articles 217 to 237, and 244 to 249)

When we deal with the articles of the EU VAT Directive, we will discuss the articles of the Regulation at the same time.

## Target group

VAT managers at internationally operating businesses and VAT consultants are warmly welcome. All participants should be familiar with the structure of the EU VAT Directive and have experience in the field of VAT.

Upon registration, participants should describe their level of experience in (EU) VAT.
