## INFORMATION

VAT Forum is organizing webinars during which experts from different EU countries will explain how Directive 2006/112/EC has been implemented in their national VAT legislation. Except for the EU Member States, also VAT experts from the UK, Norway and Switzerland will discuss the VAT system in their country. Furthermore, practical topics will be discussed such as how to complete a VAT return, the filing of the VAT return, e-invoicing and penalties.

Registration fee\*: 100 € for members of VAT Forum and 200 € for non-members, per webinar. When you attend all courses, you will receive a 10% discount. The registration fee covers the participation fees, slides and any texts used that day. The webinars will be held from 1 pm until 5.30 pm CET.

# Dates & lecturers

---

<b>Country</b>	<b>Date</b>	<b>Lecturer</b>

Lithuania	19 December 2024	Saule Dagilyte
Luxembourg	16 January 2025	Thierry Derochette
Ireland	30 January 2025	To be announced

# More information

## About VAT Forum

VAT Forum gathers, manages and distributes information on indirect taxation from around the world. Expert partners and associates gather the information and then follow up on changes in matters of indirect taxation in their own country and provide VAT Forum with this information for sharing.

Although there is a large amount of information on VAT available world-wide, it is not easily accessible to those wishing to use and consult on it, because it has never been properly organised. VAT Forum manages this information, making it accessible to all who need it.

VAT Forum regularly organises discussion groups and publicizes the outcome of these discussions. The information is distributed to its members by various means as soon as it is available.

VAT and customs legislation is very complex. Some companies are already aware of this, while others are not. VAT Forum provides assistance to those of its members who are not yet familiar with international VAT and customs legislation to help them understand its complexity and to develop certain basic skills.

For those who already have considerable experience with indirect taxation, VAT Forum organises on a regular basis events to perfect their skills.

VAT Forum is also active in the field of research into indirect taxation, because this is necessary to manage large projects. In most cases, research is the basis for further discussion, conferences and lobbying.

National VAT authorities, the European Commission and other international legislative institutions are often not aware that some rules create immense problems, complexities, and inconsistencies for companies.

Therefore, VAT Forum makes proposals to these institutions that simplify these rules, so as to reduce the uncertainty and problems companies are confronted with concerning indirect taxation. Indeed, this may contribute to making some countries, or even Europe as a whole, more investor-friendly.

# About VAT Forum

VAT Forum is an international partnership of indirect tax specialists and was founded in 1999 by Professor Prof. Patrick Wille, along with other independent VAT consultants and member companies. It consists of partners (highly experienced independent VAT consultants), and members (companies that trade across borders). The Forum organises activities and provides services for its members.

It is a fact that VAT is becoming a major issue and a significant liability for those businesses that are active across borders in Europe; this is not only the case for multinational firms, but also for smaller companies that trade within Europe.

For this reason, it is VAT Forum's main aim to support the VAT compliance requirements of its members actively, by means of short and long-term training programmes, conferences, webinars, information dissemination, technical discussion groups, lobbying and networking.
